

# ABDULLAH FAROOQ

## Software Engineer

Faisalabad, Pakistan | +92 325 3876117 | abdullahfarooq61305@gmail.com | github.com/abdullah61305 | linkedin.com/in/abdullah-farooq-7227752a2

### PROFESSIONAL SUMMARY

Computer Science undergraduate and Software Engineer with hands on experience building and deploying production web applications using React.js, Next.js, TypeScript, and Node.js. Skilled in REST API design, database architecture, and third party integrations, with recent internship experience spanning AI systems and frontend engineering. Focused on writing clean, scalable, and maintainable code across the full software development lifecycle.

### TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, C++, SQL

**Frontend:** React.js, Next.js, Tailwind CSS, HTML5, CSS3, Component Based Architecture, State Management, Responsive Design

**Backend:** Node.js, Express.js, REST API Design, Authentication and Session Management

**Databases:** PostgreSQL, MongoDB, MySQL, Schema Design, Query Optimization

**AI/ML:** LLM Integration, RAG Pipelines, Hugging Face, Scikit learn, Pandas, NumPy

**Tools & Cloud:** Git, GitHub, Vercel, Supabase, Hugging Face Spaces, CI/CD, Agile, SDLC

### EXPERIENCE

#### AI Intern, Deimos Tech

June 2026 to August 2026

- Collaborated with senior engineers to fine tune and integrate LLM based features into product workflows, supporting end to end AI pipeline development.
- Built and tested Python data preprocessing scripts, improving reliability of model input and output handling within an Agile team environment.

#### Software Engineering Intern, Novera Systems

July 2026 to September 2026

- Developed and maintained responsive React.js and TypeScript UI components aligned with design specifications and accessibility standards.
- Partnered with backend engineers to integrate REST APIs and refactored components for improved reusability across the codebase.

### KEY PROJECTS

#### Plug.ai, Full Stack Job Search Platform

2026

[Next.js](#) · [Node.js](#) · [Express.js](#) · [REST APIs](#) · [PostgreSQL](#) · [Vercel](#)

- Architected a full stack job platform with a Next.js frontend and Express.js backend, integrating LinkedIn, Google, and Glassdoor listings through a multiple source aggregation API.
- Built a resume scoring pipeline with PDF parsing to match candidates to live job listings, deployed to Vercel with automated CI/CD.

#### LexGuard, Legal Document Analysis Platform

2026

[Next.js](#) · [Python](#) · [REST APIs](#) · [PostgreSQL](#) · [Hugging Face](#)

- Built a full stack legal document platform with role based access control and a Python REST backend for automated document analysis.
- Designed a scalable PostgreSQL schema and integrated the Hugging Face Inference API, deploying model serving on Hugging Face Spaces.

#### Solo Leveling Fitness, Gamified Web App

January 2024 to Present

[React.js](#) · [TypeScript](#) · [Tailwind CSS](#) · [State Management](#)

- Led frontend development of a gamified fitness app featuring an EXP based leveling system and quest tracking, built with modular, reusable React components.
- Designed a glassmorphic, fully responsive UI in Tailwind CSS to deliver an engaging, gamer inspired user experience.

#### Commercial Data Processing and Automation Pipeline

2025

[Python](#) · [SQL](#) · [PostgreSQL](#) · [Pandas](#) · [Automated Workflows](#)

- Engineered a modular backend pipeline in Python and SQL to process millions of rows through configurable ingestion, cleaning, transformation, and export stages.
- Improved data quality by 50% and reduced manual processing overhead through automated, repeatable workflows.

### EDUCATION

#### BS Computer Science, FAST NUCES, Faisalabad

2023 to 2027

Relevant Coursework: Data Structures, Algorithm Analysis, Software Engineering, Web Programming, Operating Systems, Database Management, OOP

Leadership: Management Head, Dramocrats Society · General Secretary, BOL Society · MUN Delegate
